

ENVIROLINER

Hanging Liners for Preservation

Safe, cost effective, quickly assembled controlled humidity storage
... humidity control housing for safe storage of small equipments like engines, gear boxes, small arms, ammunition, optics, ration, documents, uniform, metal components, etc.

ENVIROLINER

The Enviroliner is the ideal solution to humidity related storage problems the Enviroliner is a custom made, modular PVC store house which can convert any space in whole or in part into cost effective humidity controlled storage area, without any special building requirement. All that is needed is a floor and a ceiling. Equipment and material stored in Enviroliner is protected against damaging effects of moisture-rust, mold, fungus, etc.

The Enviroliner, is custom-made, and uses flexible special-grade thermo. Plastic barrier materials to 'build' the walls on a framework and 'zipped' closed. A small, desiccant dehumidifier controls the relative humidity to required level of 35 to 50% RH, to ensure humidity controlled conditions needed for safe storage.

INSTALLATION OPTIONS

The Enviroliner package includes:

- Special grade Thermoplastic material
